

PROVIDER PROFILE

At the family-owned Alpha Nursery we know a thing or two about perseverance – the company began nearly 30 years ago with a single, small greenhouse. It has now grown to a 100-acre nursery with over 900 different types of plants in varying container sizes that include ornamental grasses, perennials, roses, conifers, broadleaves, azaleas and junipers; specialty items include pom poms and spirals. Our plant material is diverse, primarily for the retail market. We focus on providing quality plants to retail outlets and landscapers; currently we have five salesmen in the United States.

PRODUCT OVERVIEW

Azaleas – Grown in #1's and #2's, 12 varieties are grown

Rhododendron – 17 different varieties in #2's, #5's, and #7's

Broadleaves – Our largest product offering. This includes Buxus, Hydrangea, Viburnum and more.

One particular item that deserves special attention is **Photinia 'Pink Marble'**. The new growth is bright red then turning to pink, green, and white. Discovered at our nursery!

Conifers – Many varieties from #1's to #10's

Junipers – 11 varieties from #1's to #10's

Flowering and Shade trees – Many varieties in #7's and #15's

Grasses – Wide variety of grasses available in #1's, #2's, and #7's
