

PROVIDER PROFILE

Balamore Farm Limited is located on 1000 acres in Great Village, Nova Scotia, Canada overlooking the Bay of Fundy. The Bay of Fundy is the home of the highest tides in the world and approximately an hour and a half from Halifax.

Balamore Farms Limited began producing strawberry plants in 1990 and by 2000 they expanded their operation to include field grown perennials.

FEATURES & BENEFITS

During the 1600's and 1700's, French Acadians dyked so the tidal marshes so the soil would not be washed away; the marshes were great for farming. You can still see remnants of the original dykes today. Their maritime climate with a plant hardiness zone 5 gives Balamore Farms the perfect soil and climate for growing their perennials. They currently produce approximately 1 million bare-root plants for sale throughout Canada and the United States.
